EDUCATION

Master in Computer Science, Université Abdelhamid Mehri Constantine 2

June 2024

SKILLS

Languages	Proficient in JavaScript, HTML, CSS; Experience with Python
Frameworks	React, Node.js, Express, Next.js
Tools	Git (Version Control), Prisma (ORM), Drizzle (ORM), Docker
Databases	SQL, MySQL, PostgreSQL, MongoDB
Soft Skills	Time Management, Teamwork, Problem Solving, Responsibility

EXPERIENCE

Full Stack Developer (Freelance)

Dec 2024 - Present

Clinic Management System (Commercial Desktop Software)

- Developed a professional desktop application with Electron and React, commercialized to several private clinics to digitize medical management.
- Optimized clinic operations by replacing traditional paper systems, thereby eliminating data loss and improving patient tracking.
- Designed a complete medical suite including electronic health records (EHR), digital prescriptions, and consultation history.
- Integrated a secure financial module for real-time tracking of clinic expenses, revenues, and billing cycles.
- *Tech Stack: Electron, TypeScript, React.js, Drizzle ORM, LibSQL, Tailwind CSS.*

PROJECTS

Multi-Tenant Store Next.js, React, Stripe Connect, Payload CMS, TypeScript, Tailwind CSS [GitHub](#) / [Demo](#)

- Developed a multi-tenant e-commerce platform allowing users to create and manage their own independent online stores.
- Implemented dynamic subdomain routing for each store, providing a personalized experience for each merchant.
- Integrated Stripe Connect to manage secure multi-party payments and automated payouts.
- Built a comprehensive merchant dashboard for product management, order tracking, and store configuration.

Online Collaborative Text Editor Next.js 15, TailwindCSS, Shadcn UI, Vercel [GitHub](#) / [Demo](#)

- Created a responsive and intuitive rich text editor with real-time editing capabilities.
- Implemented live collaboration features including cursor tracking, comments, and mentions.
- Designed a robust notification system to alert users of document updates and mentions.
- Integrated margin controls and formatting preservation to ensure professional-quality workflows.
- Incorporated user profiles and organizational workspaces with secure invitation-based access.

Real-Time Messaging Application Next.js, React, Tailwind CSS, MongoDB, NextAuth [GitHub](#) / [Demo](#)

- Developed a real-time messaging system with Pusher for group and individual conversations.
- Integrated Google authentication via NextAuth for secure and seamless user onboarding.
- Implemented online/offline status tracking and read receipt features.
- Added file and image sending functionality via Cloudinary CDN, ensuring full responsiveness.
- Used React Hook Form for validation and React Toast for real-time error handling.
